

Custom Industrial Control Panels (U.L. 508A Listed)

Manufacturer of High Performance Instrumentation and Control Systems

Description:

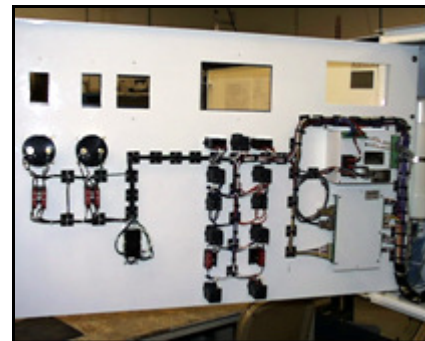

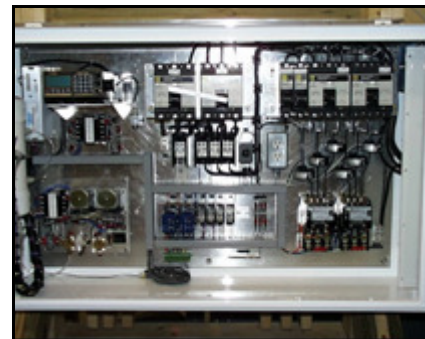

Digital Control Company is an industrial control panel manufacturer certified to Underwriters Laboratories® (UL) 508A Standards (File No. E222066). Each control panel is custom built to specifications and thoroughly tested prior to shipment. DCC has built hundreds of panels primarily designed for water and wastewater collection and distribution systems among other industrial applications.

Applications:

- Wastewater Lift Stations
- Water and Wastewater Plants
- Grinder Stations
- Landfill Liquids (Leachate) Collection
- Canal Dam Gate Automation
- Water Distribution and Control
- Storage Tanks
- Water Irrigation Control
- Storm Water Level Control
- Flood Warning
- Dewatering
- Process Control
- Most Industrial and Motor Control Applications

Features:

- Pump Controllers
- Programmable Logic Controllers (PLCs)
- NEMA and IEC Starters and Contactors
- Soft Starters
- Variable Frequency Drives (VFDs)
- Intrinsically Safe Barriers (ISBs)
- NEMA Rated Enclosures (Various Materials)
- Phase Monitoring
- Pump Over Temperature Protection
- Pump Leak (Seal Failure) Protection
- Surge Protection
- Service Disconnects
- Panel Heaters and Anti-condensation
- Level Measurement
- Alarm Systems with UPS (Battery Backup)
- Alarm Phone Dialers
- Telemetry
- Panel Design Check for Errors Prior to Construction
- Phone Start-up Support Included
- As-built Documentation - Drawings, Electrical Schematics, and Datasheets
- User Specified Parts and Equipment
- All Panel Components are UL Recognized or Listed
